DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wohlhieter [US 2,929,132] in view of Eldridge et al. [US 2002/0117330].

Wohlhieter discloses a bobbin [figures 1-2] comprising:

- a bobbin housing having a floor/flange [16];
- at least one electrical lead-in [14]; and
- a thermal strain relief means [17], wherein the strain relief includes at least one loop formed in the electrical lead-in with the loop comprises a U-shaped portion.

Wohlhieter inherently discloses a printed circuit board and the bobbin's at least one electrical lead-in being provided for attachment to the printed circuit board.

Wohlhieter discloses the instant claimed invention except for the strain relief being provided formed in the electrical lead-in and located between the floor/flange and the printed circuit board.

Eldridge et al. discloses an electronic device [figures 12A-12C] comprising:

- a housing structure [1252] having a floor;
- a printed circuit board [1204]; and

- a plurality of terminals [1230] with strain relief structure, wherein the plurality of strain relief of the terminals located between the printed circuit board the floor of the housing structure.

It would have been obvious to one having ordinary skilled in the art at the time the invention was made to use the strain relief arrangement of Eldridge et al. in Wohlhieter for the purpose of providing resilient and facilitate mounting.

Regarding claim 4, the specific shape of the strain relief's loop wound have been an obvious design consideration for the purpose of enhancing thermal relief.

Response to Arguments

Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Application/Control Number: 10/807,797

Art Unit: 2832

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TUYEN T. NGUYEN whose telephone number is 571-272-1996. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, ELVIN ENAD can be reached on 571-272-1990. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
